

3GHz F-Type Keystone Jack, Feed-Through Insert

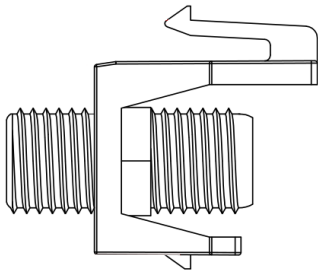

Networx Family: **KJ-F3GHZ** | Colors: Black, White, Ivory

The Networx® 3GHz F-Type Keystone Jack is a feed-through insert built to handle today's most demanding data-hungry video services. Ideal for running coaxial cable through walls, it drops into any standard keystone wall plate or patch panel opening. Available in three colors (Black, Ivory, White) for flexible configuration, it pairs with Networx® Fully Loaded Coaxial Patch Panels and Networx® Wall Plates to complete a professional-grade video distribution network.
